THE DEPTH OF THE PACIFIC OCEAN.—Recent soundings in the eastern part of the Pacific Ocean indicate that its bed is singularly level. Along the entire coast of California a depth of fifteen hundred fathoms or more is reached as soon as we go westward to a distance of from twenty to seventy miles from the shore. The greater part of this sudden fall occurs in the last ten to fifty miles. At one hundred miles west of San Francisco the bottom is over twenty-five hundred fathoms deep. There is a uniform depth of more than fifteen hundred fathoms until we reach the Sandwich Islands, the greatest depth being three thousand fathoms, at about four hundred miles east of Honolulu, which great depth is maintained to within ninety miles of that place. The average depth of the soundings is about twenty-four hundred fathoms—about two and a half miles. The bottom is generally a soft, yellowish-brown ooze, and the temperature was everywhere thirty-five degrees Fahrenheit.

THE PACIFIC GULF STREAM.—The coasts of Western America in Oregon and Vancouver's Island have a dry climate very similar to that which prevails in Western Europe in the same latitudes, and owing to similar causes; that is, it is much warmer in the winter seasons than regions situated several degrees farther south. The cause of this is a warm ocean current which has its origin in the tropics, and sets in toward the northeast in the Pacific and toward the northeast in the Atlantic. The Pacific warm current is stated by a writer in "Blackwood's Magazine" to have its origin, for a certainty, in the China Sea, and that it has been traced across to Behring Straits by sea-weed from Borneo. This ocean current flows along the coast of Japan, and is the source of fearful storms, similar to the cyclones of the Atlantic and the hurricanes of the West Indies. Sailors dislike to navigate along the Chinese and Japanese coast on account of these gales, as they are frequent and very violent. This current moves with the velocity of two and a half miles per hour, and though it is fraught with storms for the sailors, it brings warm winter breezes and fruitful showers to coasts that would otherwise be blocked up with ice, and lands that would be buried in snow eight months out of the twelve.

CONICAL WASTE PIPES.—It is found that freezing of waste pipes of sinks, etc., may be prevented by making them tapering toward the top, so that any thin ice that may form on them may fall away by a slight change of temperature, and complete stoppage cannot take place even in the coldest weather. A taper of from three inches at the top to five or six inches at the bottom will do well.

CHIMNEY ON FIRE.—Should a fire break out in a chimney, a blanket wetted should be closely nailed over the fire-place, so as to cover the opening entirely; the fire will then commonly go out of itself. A solution of pearlash in water, thrown upon a fire, extinguishes it instantly; dissolve a quarter of a pound in hot water and pour it into a bucket of water.

Broom & Hadley's Commentaries on the English Law,
OR BLACKSTONE'S COMMENTARIES RE-WITTEN.

This work was written for the purpose of giving a clear and accurate view of the general principles of the English law as it now exists. It is founded upon BLACKSTONE'S COMMENTARIES, and retains all of the useful portions of the text, while it omits the obsolete law, which has so long misled students. Besides this, it contains many new titles of the law which have been created or have grown up since the text of Blackstone was written. This work incorporates all useful English Cases down to the present time. All the valuable matter heretofore contained in the English Notes has been inserted in the text of this work, and the useless matter omitted. This avoids all confusion between the text of Blackstone and the English Notes. The American Notes to this work were written by WILLIAM WAIT, Esq., and are very full. They contain more references to American Decisions than all the American editions of Blackstone combined, besides being much larger volumes. The text of Broom & Hadley gives the English Law, while the American Notes show wherein the English and the American Law are in conflict, or in harmony. The advantage of such a work to the student will be seen upon an examination of its pages. To the practicing lawyer, and to the judge, it will be found a most convenient hand-book, containing all that is valuable in Blackstone, and combining the advantages of the latest English and American Cases upon important principles of the law. The publisher respectfully requests students, lawyers and judges to examine the work, and judge for themselves of its merits. It is a large work in two volumes of 900 pages each. Price \$13.00.

XLIVTH CONGRESS.

The Constitution requires nine years' citizenship to qualify for admission to the Senate, and seven years to the House of Representatives. An act approved July 26, 1866, requires the Legislature of each State, which shall be chosen next preceding the expiration of any Senatorial term on the second Tuesday after its first meeting, to elect a successor, each House nominating *viva voce*, and then convening in Joint Assembly to compare nominations. In case of agreement, such person shall be declared duly elected; and if they do not agree, then balloting to continue from day to day, at 12 m., during the session, until choice has been made. Vacancies are to be filled in like manner. The members of each House receive a salary of \$5,000 per annum, and mileage at the rate of twenty cents per mile. For each day's absence, except when caused by sickness, \$3 per diem is deducted from the salary. The President *pro tem.* of the Senate receives the same compensation as the Vice-President. The Speaker of the House of Representatives receives double the salary of a member.

SENATE—74 MEMBERS.

STATE ELECTION RESULTS.

VOTE FOR STATE OFFICERS, ETC., 1874, 1875, AND PRESIDENT, 1872.

With Comparative Vote since 1868.

ALABAMA.

State officers (Democratic), members of Congress and members of the Legislature were elected in 1874. In 1875 an amended Constitution was adopted by a convention chosen August 3, and the instrument was ratified by the people November 16. It recognizes fully the changed condition of affairs in the South, contains declarations against secession, slavery and color restrictions; changes day of election from first Monday in November to first Monday in August; makes elections biennial; restricts the Legislature to biennial fifty-day sessions; provides safeguards against local and special legislation and bribery; prohibits State or municipal aid to internal improvements; authorizes the Legislature to establish free schools and separate schools for colored children; limits the State tax to three-fourths of one per cent, except for purposes of defense or to provide for the public safety; abolishes the office of Lieutenant-Governor, and continues the elective judiciary system. The instrument makes no provision for the payment of principal or interest of the State debt of \$30,000,000, which is thus practically repudiated.

George S. Houston, Dem., was elected Governor in 1874, by a majority of 13,190 over David P. Lewis, Rep.

MISSOURI.

State officers, Congressmen and members of the Legislature were elected in 1874. Charles H. Hardin, Dem., being chosen Governor over William Geunty, People's candidate, by 37,462 majority.

A special election on the question of accepting or rejecting a new Constitution was held in November, 1875, the instrument being ratified by a majority of 76,233, in a total vote of 104,962. The new Constitution contains some important changes relative to the powers of the Legislature, and embodies stringent restrictions in regard to special legislation, and the creation of debts against the State. Under it, also, municipalities are forbidden to create a debt exceeding five per cent of the assessed valuation of taxable property, and the consent of two-thirds of the citizens is required. It is provided that no person shall be compelled to attend upon any form of religious worship or to contribute to its support, and no public money shall be appropriated for religious purposes, while religious corporations may only organize under general laws. Separate schools are to be established for colored children. It is declared a felony to make any profit out of State, county, city, town or school money, and it is made a crime for any officer of a banking institution to assent to the reception of deposits or the creation of debts by the institution after he shall have had knowledge of the fact that it is insolvent or in failing circumstances.

Members elect in *Italics*.

An election was held in the Thirty-third Congressional district to fill a vacancy caused by the death of Augustus F. Allen. Owing to informality in the ballots, the canvassers declined to certify that any person had been regularly elected a Representative in Congress of the United States. Nelson I. Norton, Republican, received 4,961 votes in Cattaraugus county for "Representative in Congress," and 5,809 in Chautauqua county for "Member of Congress," Charles S. Cary, Democrat, received 4,525 votes in Cattaraugus, and 4,614 in Chautauqua for "Representative in Congress," and A. N. Lowry received 5 votes in Chautauqua for "Representative in the Forty-fourth Congress." It was claimed that Lowry's votes were the only ones cast according to law, but the board refused to so decide, and transmitted a statement of their reasons and the facts for the consideration of Congress.

NOTE.—The return for Michigan is that for 1874. The figures for Texas, Louisiana and South Carolina are not reliable. The eleven States whose returns are worth anything show a growth of 1,612,000 in five years. As they represent slightly more than one-fourth of the whole country, it is safe to estimate that the increase during the last five years has been five millions, making our total population in the middle of 1875 something more than forty-three millions.

THE REPUBLICAN PLATFORM.

Adopted at Saratoga, September 8, 1875.

The Republicans of New York, faithful to justice and liberty, to the supremacy of the Constitution, to National unity and the just rights of the States, make the following declaration of principles:

First—The National Government should remain in the hands of those who sustain the guaranties of the amended Constitution, and, in pursuance of the past action of the Republican party and its good results, the welfare of the country requires a just, generous and forbearing National policy in the Southern States, a firm refusal to use the military power, except for purposes clearly defined in the Constitution, and local enforcement of National authority by those only who are in sympathy with such a policy and will heartily support it.

Second—We demand honesty, economy and efficiency in every branch of the State and National administrations, the prompt investigation of all charges of wrong-doing, and the summary exposure, prosecution and punishment of wrong-doers. We, therefore, heartily commend the action of all officers, whether of the State or National Government, in their honest efforts for the correction of public abuses. We pledge to them our constant and faithful support, and we charge every nominee of this Convention to co-operate in every honorable way to secure pure government and to bring offenders to justice.

Third—The people should nominate for the Legislature only men who are pledged by their known character to provide and sustain measures calculated to rescue and preserve the State from every form of corruption and maladministration.

Fourth—The guilty offenders in the management of the canals should be brought to speedy punishment, and the Executive, under the powers already conferred upon him, should suspend all officers who have violated the law.

Fifth—The Republican party has proved itself from the beginning the party of practical reform and sound economy. In the affairs of this State, it has within the last four years provided for the payment

of \$20,000,000 of the public debt, and practically extinguished the general State indebtedness, and by this action has made it certain that the tax for next year will be reduced about \$3,000,000.

Sixth—The further inflation of the currency, under any pretense whatever, would be a public calamity. The interests of honest industry and the common welfare demand the speediest possible return to specie payments.

Seventh—The whole subject of taxation ought to be carefully and wisely reviewed, to the end that its burdens should bear equitably upon all.

Eighth—Recognizing as conclusive the President's public declaration that he is not a candidate for re-nomination, and with the sincerest gratitude for his patriotic services, we declare our unalterable opposition to the election of any President for a third term.

Ninth—The free public school is the bulwark of the American Republic. We therefore demand the unqualified maintenance of the public school system, and its support by equal taxation. We are opposed to all sectarian appropriations, and we denounce as a crime against liberty and Republican institutions any project for sectarian division or perversion of the School Fund of the State.

Tenth—The National Administration, by its steadfast fidelity to commercial honor, by its opposition to unsound financial projects, by its calm avoidance of collisions with foreign powers, by its reliance on justice and reason rather than on force in the settlement of disputes, by its firm vindication of the National integrity and authority, by rigidly executing the laws, correcting abuses, punishing offenders and enforcing retrenchment, without boastful or ostentatious pretension, deserves the gratitude of the American people, and adds lustre to the services in war of the distinguished soldier and patriot who stands at its head.

From President Grant's Annual Message, December 7, 1875.

As this will be the last annual message which I shall have the honor of transmitting to Congress before my successor is chosen, I will repeat or recapitulate the questions which I deem of vital importance which should be legislated upon and settled at this session.

First—That the States shall be required to afford the opportunity of a good common school education to every child within their limits.

Second—No sectarian tenets shall ever be taught in any school supported in whole or in part by the State or nation, or by the proceeds of any tax levied upon any community. Make education compulsory so far as to deprive all persons who cannot read and write from becoming voters after the year 1880, disfranchise none, however, on grounds of illiteracy who may be voters at the time this amendment takes effect.

Third—Declare Church and State separate and distinct, but each within their proper spheres, and that all church property shall bear its own proportion of taxation.

Fourth—Drive out licensed immorality such as polygamy and the importation of women for illegitimate purposes.

Fifth—Enact such laws as will insure a speedy return to a sound currency, such as will command the respect of the world.

Recurring to the Centennial year, it would seem as though now as we are about to begin the second century of our national existence, would be a most flattering time for these reforms.

Believing that these views will commend themselves to the great majority of the right thinking and patriotic citizens of the United States, I submit the rest to Congress.

RATES OF POSTAGE.

All domestic mail matter must be prepaid by postage stamps. All letters received in the office with stamps cut from stamped envelopes, or with such postage stamps as were in use prior to 1861, or with revenue stamps on them, are treated as "unmailable," and sent to the Dead-Letter Office. Departmental postage is prepaid by special stamps, prepared and furnished by the Post-Office Department. *Letters deposited in city lamp-post boxes must have the requisite number of stamps before placing them therein. Depositing money in the boxes does not insure their being prepaid.* Newspapers are not taken at city lamp-post boxes. A letter on which one full rate of postage is prepaid, but on which further postage is chargeable, will be forwarded, when deposited in a post-office, and the deficient postage at single rates collected on delivery. If the postage is left wholly unpaid, or is prepaid less than one full rate, it will be "held for postage" and sent to the Dead-Letter Office. Should it reach its destination by inadvertence, however, it will be charged with double postage on delivery, with allowance of any amount less than one full rate which has been prepaid thereon. "One full rate" means, in the case of mail letters, three cents. All matter other than letters, must be fully prepaid, or it will not be forwarded except possibly by inadvertence, in which case double postage will be collected on its delivery. Letters addressed to initials or fictitious names are not deliverable unless the address contains a designated place of delivery. The following are the rates payable on the different classes of domestic mail matter:

First Class.

On letters, sealed packages, mail matter wholly or partly in writing (except book manuscripts and corrected proof sheets passing between authors and publishers, and except local or "drop" letters); on all printed matter so marked as to convey any other or further information than is conveyed by the original (except the correction of typographical errors); on all matter not otherwise chargeable with letter postage, but which is so wrapped or secured that it cannot be conveniently examined by postmasters without destroying the wrapper or envelope; on all newspapers, magazines and periodicals sent from publishers to subscribers and inclosing any article whatever except bona fide supplements or bills and receipts for subscriptions; and on all packages of matter not in itself chargeable with letter postage, but in which is inclosed or concealed any letter or other thing chargeable with letter postage, 3 cents for each half ounce or fraction thereof, weight of packages limited to four pounds. On local or "drop" letters, at offices where free delivery by carriers is established, 2 cents for each half ounce or fraction thereof, weight of packages limited to four pounds. On local or "drop" letters, at offices where free delivery by carriers is not established, 1 cent per half ounce or fraction thereof, weight of packages limited to four pounds.

Second Class.

On newspapers sent to regular subscribers from a known office of publication, or by newsdealers to other newsdealers, 2 cents per pound. On magazines and periodicals, sent to regular subscribers from a known office of publication, or by newsdealers to other newsdealers, 3 cents per pound. These rates are payable by the publisher or newsdealer at the office of mailing, and at the time the matter is deposited in the post-office. Postage on printed matter to Canada and other British North-American Provinces can be prepaid only to the boundary line—the rates being the same as on domestic matter of the same kind. "Exchanges" are rated the same as subscribers' papers, and have the privilege of free circulation in the county of publication, the same as county papers.

Third Class.

[NOTE.—Packages of mailable matter of this class must be prepaid by stamps, and must not exceed the

weight prescribed by law (which is four pounds). Packages exceeding the prescribed weight are unmailable.]

All matter of the third class must be fully prepaid. On pamphlets, occasional publications, transient newspapers, magazines and periodicals; hand-bills, posterns, sheet-music, unsealed circulars, prospectuses, book manuscripts and proof sheets; printed cards, maps, lithographs, prints, chromo-lithographs and engravings; seeds, cuttings, bulbs, roots and scions, 1 cent for each ounce or fraction thereof—weight of package limited to four pounds. On flexible patterns; samples of ores, metals, minerals and merchandise; sample cards, photographic paper, letter envelopes, postal envelopes and wrappers, unprinted cards, plain and ornamental paper, photographs, and all other articles for which other rates of postage are not prescribed in this table, and which are not by law excluded from the mails, 1 cent for each ounce or fraction thereof—weight of packages limited to four pounds. On books, 1 cent for each ounce or fraction thereof—weight of packages limited to four pounds. On unsealed circulars, newspapers (whether transient or addressed to regular subscribers)—excepting weekly papers, which may be delivered to subscribers on prepayment of regular rates, viz.: 2 cents per pound, and on periodicals not exceeding two ounces in weight, when any of the same are deposited in a letter carrier office for delivery by the office or its carriers, 1 cent each. On periodicals exceeding two ounces in weight, when deposited in a letter carrier office for delivery by the office or its carriers, 2 cents each. Postmasters are required and directed to pass free through the mails the Congressional Record, or any part thereof, or speeches or reports therein contained; also such speeches and reports when printed otherwise than in the Congressional Record, upon which the word "free" is written or printed over the name of a member or delegate of Congress, written by himself. They shall also pass free through the mails Agricultural Reports emanating from the Department of Agriculture, packages of seeds transmitted by the Commissioner of Agriculture, and packages of seeds received for distribution from the Department of Agriculture, when such reports and packages of seeds are transmitted by the Commissioner of Agriculture, a member or delegate of Congress, or an ex-member or ex-delegate of Congress, within nine months from the expiration of their terms as members and delegates, provided there is written or printed on such reports or packages of seeds the word "free" over the name of the Commissioner of Agriculture, written by himself, or over the name of a member or delegate of Congress, written by himself, or over the name of an ex-member of Congress, or ex-delegate, written by himself, within nine months from the expiration of the term of such ex-member or ex-delegate.

Postal Cards

may be procured at any post-office, at a cost of 1 cent each. The message, etc., must be always written on the back of the card. If any thing but the address is written on the face, letter postage must be paid by stamps, or the card will not be forwarded. Nothing whatever must be attached to the card. Postal cards will be forwarded from one office to another, in case of removal of the person addressed, but will in no case be returned to writer, nor sent to the Dead-Letter Office, nor advertised.

Domestic Money Orders

are issued at any money-order post-office in the United States, payable at any other money-order post-office, in sums of not more than fifty dollars. Larger amounts can be sent to the same person by additional orders. Rates: On orders not exceeding \$15, 10 cents; over \$15 and not exceeding \$30, 15 cents; over \$30 and not exceeding \$40, 20 cents; over \$40 and not exceeding \$50, 25 cents.

Foreign Money Orders.

At the principal money-order post-offices in the United States (including all the larger post-offices), money orders, payable at money-order post-offices in Great Britain, Ireland and Switzerland, may be procured at the following rates: On orders not exceeding \$10, 25 cents; over \$10 and not exceeding \$20, 50 cents; over \$20 and not exceeding \$30, 75 cents; over \$30 and not exceeding \$40, \$1; over \$40 and not exceeding \$50, \$1.25. Orders can also be obtained on Germany at the following rates: On orders not exceeding \$5, 15 cents; over \$5 and not exceeding \$10, 25 cents; over \$10 and not exceeding \$20, 50 cents; over \$20 and not exceeding \$30, 75 cents; over \$30 and not exceeding \$40, \$1; over \$40 and not exceeding \$50, \$1.25.

Unclaimed Letters.

All letters remaining unclaimed for thirty days in a post-office after being advertised, are sent to the Dead-Letter Office, except letters bearing a request to return to the writer if not called for within a specified time, and letters bearing the name and address of the writer on the outside. Such letters are returned direct to the writers without advertising.

Forwarding Letters Free.

Prepaid and free letters are forwarded from one post-office to another, at the request of the persons addressed, without additional postage. But a letter which has been once delivered to an authorized person cannot be remailed to a new address without the prepayment of additional postage. Drop-letters, when forwarded by mail to another post-office, must be prepaid at 3 cents per half-ounce. No mail matter, except letters or postal cards, can be forwarded to a new address except on prepayment of postage by stamps at regular rates.

Registered Letters.

Letters can be registered to any part of the United States and Territories and to foreign countries on payment of a registration fee of 10 cents. All registration fees must be paid by stamps, and the postage on all registered letters must also be prepaid in full by stamps. The public are desired by the Post-office never to send money or valuable articles in unregistered letters. Postmasters at all post-offices are obliged to register letters and packages when requested to do so.

Foreign Postage.

For letters not over half an ounce, to Austria, 5 cents; Belgium, 5 cents; Canada, 3 cents; France, 9 cents; Germany, 5 cents; Great Britain, 5 cents; Italy, 5 cents; Netherlands, 5 cents; Russia, 5 cents; Spain, 12 cents; Sweden, 5 cents; Switzerland, 5 cents.

[POSTAL CARDS may be sent to Canada, Newfoundland, Germany and Switzerland. A one-cent adhesive postage-stamp must be affixed to each postal card so sent, in addition to the one-cent stamp already printed thereon.]

Suggestions.

All mail matter should be plainly and fully directed. In addition to the town or city and State, the name of the *county* should be added, if known; though the latter is not necessary in the case of matter for New York, Chicago or other large cities.

All mail matter for large cities should be directed to the street and number of the person or firm addressed, or to box number. Letters for large cities, addressed to transient residents and intended "to be called for," should be so marked.

Postage-stamps should be affixed to the upper right-hand corners of letters, and the use of envelopes of dark colors or fanciful forms should be avoided. Sealing-wax should not be used on mail matter in hot weather, nor at any time on letters directed to tropical countries.

Letters are sometimes "held for postage" in consequence of the failure of the stamps to adhere after the letters have been mailed. This difficulty can be avoided by taking care to wet moderately *both* sides of the stamps.

Glass, liquids, poisons and explosive materials are excluded from the mails by law, and, if deposited in a post-office, will not be forwarded.

Cases of serious loss or delay should be reported to the "Second Assistant Postmaster-General, Washington, D. C.;" ordinary cases, to the local postmaster.

Every letter, newspaper or other packet sent by mail should be securely folded and fastened.

[When this Almanac went to press, a bill was pending in Congress to repeal the sections relating to postage on newspapers rated under second and third class.

MERCHANT'S GARGLING OIL, A LINIMENT FOR MAN AND BEAST.

"Whether for use on man or beast, Merchant's Gargling Oil will be found an invaluable Liniment, and worthy of use by every resident in the land. We know of no proprietary medicine or article now used in the United States which shares the good will of the people to a greater degree than this. Yellow wrapper for animal and white for human flesh."—*New York Independent.*

Extract from a letter from G. H. Simmonds, Unionville, Ia., July 24, 1873.—"I am selling more Gargling Oil than all the liniments put together, and I am keeping twelve different kinds. I think it is the best remedy for horseflesh in existence, and can say it without fear of successful contradiction."

Extract from a letter from Shoemaker & Co., Bloomington, Ind., Sept. 17, 1873.—"It is the popular horse liniment in this country."

Extract from a letter from George A. Snell, Braman's Corners, N. Y., Aug. 9, 1873.—"I sell more of your Gargling Oil than of all other liniments combined, and have seen it used on horses and cattle with good effect when others have failed."

Extract from a letter from Pattee & Co., Derry, N. H., Aug. 26, 1873.—"We think your Gargling Oil one of the best articles for what it is recommended that we have ever used or sold."

Extract from a letter from Snowden & Gibbs, Concordia, Kan., July 28, 1873.—"We sell more of your Gargling Oil than of any liniment we keep."

MERCHANT'S GARGLING OIL AS A FAMILY LINIMENT.

✓ We are now, and have been for some years, preparing the Oil free from stain, to be used as a common liniment for human flesh, extracting the coloring ingredient which has heretofore rendered it objectionable. This Oil possesses all the medicinal properties of that prepared with the dark tinge for horses and cattle, and will be found one of the best remedies for all purposes where a liniment is required that has ever been manufactured.

From J. K. Fisher, Uniontown, Pa., Jan. 31, 1857.—"Your Gargling Oil is doing much better here than formerly, since its virtues have become known; and the bottles put up for family use, without stain, are much sought for."

✚ The Gargling Oil called "Family Oil," although prepared intentionally for human flesh, answers as well for beasts; *vice versa*, the dark Oil answers as well for human flesh, only it will stain and discolor the skin, but not permanently. Yellow wrapper for animal and white for human flesh.

✚ **MERCHANT'S GARGLING OIL** is the Standard Liniment of the United States. Established 1833. Large size, \$1; medium, 50c; small, 25c; small size for family use, 25c. Manufactured at Lockport, N. Y., by M. G. O. Co., and sold by all druggists.

THE ELECTRIC LIGHT is growing in favor as a means of illumination in lighthouses. The French lighthouse at La Have, near Havre, said to be the most magnificent establishment of its kind in the world, is thus lighted. The difference between this light and the best of oil lamps is similar to that between a gas light and a candle. The expense of the very powerful electric light at La Have is about one-seventh of the decidedly inferior oil lights. The most powerful artificial light at present in existence is said to be the electric light at Souter Point, near the mouth of the Tyne, England. This light is equal in power, after condensation, to 800,000 standard candles—about eight times as powerful as the best American fixed lights. This light is so bright as to cast a well-defined shadow upon the deck of a vessel at the distance of several miles. The light is generated by two magneto-electric machines driven by six-horse-power steam engines.

IMPORTS AND EXPORTS.—Our imports for the fiscal year ending ending June 30, 1876, were valued at \$460,000,000; our exports at \$536,000,000; our foreign sales of domestic productions and manufactures for the year thus exceeding our purchases of foreign merchandise by about \$76,000,000.

TUNNELLING THE ENGLISH CHANNEL.—The preliminary work of soundings, etc., has been going forward for this daring and magnificent engineering project. There is reason to believe that there is a bed of chalk stretching uninterruptedly under the sea across the channel. The maximum depth of water does not exceed 180 feet at any point. The thickness of the rock-bed over the proposed tunnel would be nowhere less than 200 feet. The engineers think the problem of ventilating the tunnel easy of solution. The probabilities are, that the work will be begun by private enterprise, and completed by the aid of liberal subsidies by the English and French governments.

TO FIND THE MERIDIAN. — Upon a piece of board describe a number of concentric circles. Place this in the sun; over the center hang a plummet. Observe the shortest shadow from the plummet; the sun will then be on the meridian; draw a line to the center of the circle, and that will be the true meridian line. This will do to mark the apparent time or to correct the compass for variation.

DECREASE OF WATER IN EUROPEAN RIVERS.—The levels of the German rivers are now much lower than they were fifty years ago. The reason is the progressing devastation of forests. Less atmospheric moisture is consequently attracted and conveyed to the soil and thence to the streams.

XLIVTH CONGRESS.

The Constitution requires nine years' citizenship to qualify for admission to the Senate, and seven years to the House of Representatives. An act approved July 26, 1866, requires the Legislature of each State, which shall be chosen next preceding the expiration of any Senatorial term, on the second Tuesday after its first meeting, to elect a successor, each House nominating *visa voce*, and then convening in Joint Assembly to compare nominations. In case of agreement, such person shall be declared duly elected; and if they do not agree, then balloting to continue from day to day, at 12 m., during the session, until choice has been made. Vacancies are to be filled in like manner. The members of each House receive a salary of \$5,000 per annum, and mileage at the rate of twenty cents per mile. For each day's absence, except when caused by sickness, \$3 per diem is deducted from the salary. The President *pro tem.* of the Senate receives the same compensation as the Vice-President. The Speaker of the House of Representatives receives double the salary of a member.

SENATE—76 MEMBERS.

Total vote, Governor, 1876, official count, 46,874; Democratic count, 48,729; Congress, 1874, 36,164.

The above results were reached by changes and corrections in a number of precincts. The actual vote for Electors, on the face of the returns, was stated to be as follows: Republican, 24,327; Democratic, 24,285; Republican majority, 42. On a subsequent recount of the vote for Governor, by order of the Supreme Court, the vote of Clay county was rejected, increasing the majority for the Republican Electors, as shown by the face of the returns, to 211. This result was duly filed in the office of the Secretary of State. While making the recount, however, a majority of the canvassers protested against the mandate of the court, claiming that their first canvass was the only true and lawful one, and that the corrections in the actual returns were owing to frauds and irregularities in the respective counties and precincts.

On the recount, December 27, the Canvassers certified, under protest, the following figures to the Supreme Court: Governor, Stearns, Rep., 23,984; Drew, Dem., 24,179; Drew's majority, 195. Lieutenant Governor, Montgomery, Rep., 23,895; Hull, Dem., 24,243; Hull's majority, 348. The inauguration of the Democratic officers followed the announcement of this result.

The Board of Canvassers have since been directed, by legislative enactment, to canvass the returns for Electors in accordance with the Supreme Court decision. Such a canvass would produce the result claimed as correct by Democratic counsel, and give the Tilden Electors 94 majority. In the court proceedings which followed, the Canvassers entered pleas that the Hayes Electors had received a majority of the votes legally cast, and that their own existence as a board had ended. Other legislation was resorted to, and the aid of the State courts has been liberally invoked to sustain the claims made in behalf of the Tilden Electors.

The Senate Elections Committee investigated the returns, and reported that the official canvass was legal and conclusive, that the Board had the right to seek the true vote behind the returns, and that its action regarding Baker, Duval, Alachua, Jackson and Manatee counties was fully justified by the law and the facts.

A committee of the House of Representatives also investigated the election, reaching conclusions which support the Democratic view of the case. The Democrats lay stress upon the canvass of an alleged false return of the Baker county vote, from which it is charged that two precincts were omitted.

LOUISIANA.

A Governor and other State officers, Congressmen, Electors and Legislature were voted for in November. Stephen B. Packard, Rep., was declared elected Governor by the legally constituted canvassing officers by a majority of 3,426, while, according to the same authority, the Republican Electors had an average majority of 3,931. The other Republican State officers were elected by nearly similar majorities, and four Republican and two Democratic Congressmen, as well as a majority of Senators and Representatives, were also declared elected. This result was obtained by throwing out, as required by law, portions of some twenty parishes, and the whole of East Feliciana and Grant parishes, because of wholesale intimidation and fraud. The Democrats protested against the canvass of the Returning Board, and the count of their committee, from the face of the returns, a protest being entered against a portion of Concordia parish, gives the Democratic Electors 6,549 majority, and Francis T. Nicholls, Dem., for Governor, 9,010 majority. Republican and Democratic Legislatures were organized on the 1st of January,

and both sets of State officers were inaugurated, the contest between the two being yet unsettled when the Almanac went to press. Two Electoral colleges were also organized, and a record of their votes sent to Washington. In the tables which follow, the vote for President is given as officially counted by the Returning Board, and also as the Democratic committee claim it should be counted. The vote for Governor by parishes is that officially compiled by the Board and canvassed by the Republican Legislature.

SOUTH CAROLINA.

State officers, Congressmen, Electors and House of Representatives were chosen in November, 1876. Hampton, Dem., for Governor, received a majority of the votes returned, but the Legislature, whose duty it was to canvass the vote, threw out the counties of Edgefield and Laurens on the ground of gross intimidation and fraud, thus electing Chamberlain, Rep., by 3,138 majority. Chamberlain was subsequently inaugurated, and not only continues in possession of the executive office, but is recognized as the *de facto* Governor by the Federal authorities. Hampton, claiming to be elected, went through the form of inauguration by the Democratic portion of the Legislature, and still assumes to exercise executive functions, but has as yet received no recognition from any competent authority, either State or National. According to the returns filed with the Secretary of State the remaining Republican State officers, and the Republican Electors, received a majority of the votes, without excluding Edgefield and Laurens counties.

THE ELECTORAL COUNT.

The Joint Committee of Congress, charged with devising a plan for counting the Electoral votes for President and Vice President, completed its labors January 18th, and submitted the result in the form of a report and Bill to both Houses. The Bill was promptly passed by a vote of 47 to 17 in the Senate, and 191 to 86 in the House. Under its provisions the following Commission of fifteen was constituted, five Senators being chosen by the Senate, five Representatives by the House, and four Justices of the Supreme Court virtually named in the act, selecting a fifth Justice:

The act provides that the count of the Electoral votes shall proceed in Joint Convention, in the usual manner, in the alphabetical order of the States, until objections are made in proper form, or more than one Electoral certificate is presented from a State. In case of a simple objection, the two Houses separate for deliberation, and the concurrence of both is necessary to reject the vote. Where two or more certificates are presented, the papers and returns are referred to the Commission, its decision in the matter being conclusive unless overruled by the separate concurrence of both houses.

The two Houses met in Joint Convention to count the votes on the 1st of February. No objection was made until Florida was reached, when three sets of papers were presented, one for the Hayes Electors, signed by the Board of Canvassers and certified by Gov. Stearns, another for the Tilden Electors, signed by the Attorney-General, and a later one for the Tilden Electors, signed by Gov. Drew, and embracing the Supreme Court *quo warranto* proceedings. These were referred to the Commission, the principal point at issue being as to whether it possessed jurisdiction to go behind the regular certificate and receive evidence for the purpose of correcting or changing the canvassed returns. After a lengthy argument the Commission decided, by a party vote, 8 to 7, that it had no authority to go outside of the Governor's certificate, founded upon the determination of the Canvassing Board; that acts of the Legislature or courts subsequent to the day when the Electors voted could not be considered, and that there was not sufficient proof of the alleged ineligibility of Humphreys, one of the Electors. The four Republican Electors were therefore declared to be legally and constitutionally appointed. This determination was announced to the Joint Convention February 10, and the vote of Florida was counted for Hayes. The count was then proceeded with, Louisiana, Oregon and South Carolina being severally referred to the Commission and decided for Hayes, and completed March 2, when Hayes and Wheeler were declared elected. The vote stood: Hayes, 185; Tilden, 184.

Justices of the Supreme Court.

The Supreme Court consists of thirty-three Justices. The State is divided into eight judicial districts, and four Justices are elected in each, except the first, which elects five. Elections for Justices of the Supreme Court are held every alternate odd year. As fast as the terms of Justices expire, elections take place for a term of fourteen years. For General Term purposes, the State is divided into Judicial Departments. The Governor designates the Justices to hold the General Terms. In each department there is a Presiding Justice, who holds office during the term for which he was elected to the bench, and two associates, who hold office for five years, unless the terms for which they were elected sooner expire.

NATIONAL REPUBLICAN PLATFORM.

Adopted at Cincinnati, June 15, 1876.

When, in the economy of Providence, this land was to be purged of human slavery, and when the strength of government of the people, by the people, for the people, was to be demonstrated, the Republican party came into power. Its deeds have passed into history, and we look back to them with pride. Inspired by their memories, and with high aims for the good of our country and mankind, and looking to the future with unflinching courage, hope and purpose, we, the representatives of the party, in National Convention assembled, make the following declaration of principles:

First—The United States of America is a nation, not a league. By the combined workings of the National and State governments, under their respective Constitutions, the rights of every citizen are secured at home and protected abroad, and the common welfare promoted.

Second—The Republican party has preserved these governments to the hundredth anniversary of the nation's birth, and they are now embodiments of the great truths spoken at its cradle, that all men are created equal, that they are endowed by their Creator with certain inalienable rights, among which are life, liberty, and the pursuit of happiness; that for the attainment of these ends governments have been instituted among men, deriving their just powers from the consent of the governed. Until these truths are cheerfully obeyed, and, if need be, vigorously enforced, the work of the Republican party is unfinished.

Third—The permanent pacification of the Southern section of the Union and the complete protection of all its citizens in the free enjoyment of all their rights, are duties to which the Republican party is sacredly pledged. The power to provide for the enforcement of the principles embodied in the recent

constitutional amendments is vested by those amendments in the Congress of the United States, and we declare it to be the solemn obligation of the Legislative and Executive departments of the Government to put into immediate and vigorous exercise all their Constitutional powers for removing any just causes of discontent on the part of any class, and securing to every American citizen complete liberty and exact equality in the exercise of all civil, political and public rights. To this end we imperatively demand a Congress and chief executive whose courage and fidelity to these duties shall not falter until these results are placed beyond dispute or recall.

Fourth—In the first act of Congress signed by President Grant, the National Government assumed to remove any doubt of its purpose to discharge all just obligations to public creditors, and solemnly pledged its faith "to make provision at the earliest practicable period for the redemption of the United States notes in coin." Commercial prosperity, public morals, and the national credit demand that this promise be fulfilled by a continuous and steady progress to specie payment.

Fifth—Under the Constitution the President and heads of departments are to make nominations for office, the Senate is to advise and consent to appointments, and the House of Representatives is to accuse and prosecute faithless officers. The best interest of the public service demands that these distinctions be respected—that Senators and Representatives who may be judges and accusers should not dictate appointments to office. The invariable rule for appointments should have reference to the honesty, fidelity and capacity of appointees, giving to the party in power those places where harmony and vigor of administration requires its policy to be represented, but

permitting all others to be filled by persons selected with sole reference to the efficiency of the public service and the right of citizens to share in the honor of rendering faithful service to their country.

Sixth—We rejoice in the quickened conscience of the people concerning political affairs. We will hold all public officers to arid responsibility, and engage that the prosecution and punishment of all who betray official trusts shall be speedy, thorough and unsparing.

Seventh—The public school system of the several States is the bulwark of the American Republic, and with a view to its security and permanence we recommend an amendment to the Constitution of the United States forbidding the application of any public funds or property for the benefit of any school or institution under sectarian control.

Eighth—The revenue necessary for current expenditures and the obligations of the public debt must be largely derived from duties upon importations, which, so far as possible, should be so adjusted as to promote the interests of American labor and advance the prosperity of the whole country.

Ninth—We reaffirm our opposition to further grants of the public lands to corporations and monopolies, and demand that the national domain be devoted to free homes for the people.

Tenth—It is the imperative duty of the Government so to modify existing treaties with European Governments that the same protection shall be afforded to adopted American citizens that is given to native born, and all necessary laws be passed to protect emigrants, in the absence of power in the States for that purpose.

Eleventh—It is the immediate duty of Congress fully to investigate the effect of the immigration and importation of Mongolians on the moral and material interests of the country.

Twelfth—The Republican party recognizes with approval the substantial advances recently made toward the establishment of equal rights for women, by the many important amendments effected by Republican Legislatures in the laws which concern the personal and property relations of wives, mothers and widows, and by the appointment and election of women to the superintendence of education, charities and other public trusts. The honest demands of this class of citizens for additional rights, privileges and immunities should be treated with respectful consideration.

Thirteenth—The Constitution confers upon Congress sovereign power over the Territories of the United States for their government. And in the exercise of

this power it is the right and duty of Congress to prohibit and extirpate in the Territories that relic of barbarism, polygamy; and we demand such legislation as will secure this end, and the supremacy of American institutions in all the Territories.

Fourteenth—The pledges which our nation has given to our soldiers and sailors must be fulfilled. The grateful people will always hold those who perilled their lives for the country's preservation in the kindest remembrance.

Fifteenth—We sincerely deprecate all sectional feeling and tendencies. We therefore note with deep solicitude that the Democratic party counts, as its chief hope of success, upon the electoral vote of a united South, secured through the efforts of those who were recently arrayed against the nation, and we invoke the earnest attention of the country to the grave truth that a success thus achieved would re-open sectional strife and imperil national honor and human rights.

Sixteenth—We charge the Democratic party with being the same in character and spirit as when it sympathized with treason; with making its control of the House of Representatives the triumph and opportunity of the nation's recent foes; with re-asserting and applauding in the National Capitol the sentiments of unrepentant rebellion; with sending Union soldiers to the rear and promoting Confederate soldiers to the front; with deliberately proposing to repudiate the plighted faith of the government; with being equally false and imbecile upon the overshadowing financial questions; with thwarting the ends of justice by its partisan mismanagement and obstruction of investigation; with proving itself, through the period of its ascendancy in the lower House of Congress, utterly incompetent to administer the government; and we warn the country against trusting a party thus alike unworthy, recreant and incapable.

Seventeenth—The National Administration merits commendation for its honorable work in the management of domestic and foreign affairs, and President Grant deserves the continued hearty gratitude of the American people for his patriotism and his eminent services in war and in peace.

Eighteenth—We present as our candidates for President and Vice-President of the United States, two distinguished statesmen of eminent ability and character, and conspicuously fitted for those high offices, and we confidently appeal to the American people to entrust the administration of their affairs to Rutherford B. Hayes and William A. Wheeler.

Deduct exports of coin and bullion for the year.....	56,508,000

Total estimated amount of coin and bullion in the country, June 30, 1876..... **\$186,676,000**

It is estimated that the amount of gold and silver consumed in the arts and manufactures during the year was probably \$5,000,000, which, deducted from the total estimated amount, gives \$181,678,000 as the probable amount of gold and silver coin and bullion in the country on June 30, 1876, about \$30,113,000 of which consisted of silver coin and bullion.

The estimates show that during the year 1876 there has been a probable increase of \$21,565,000 of gold coin and bullion, and \$18,113,000 of silver coin and bullion; or a total increase of \$39,678,000 over the amounts estimated to have been in the country on June 30, 1875.

POSTAL RATES AND REGULATIONS.

All domestic mail matter must be *prepaid* by postage stamps. All letters received in the office with stamps cut from stamped envelopes, or with such postage stamps as were in use prior to 1861, or with revenue stamps on them, are treated as "unmailable," and sent to the Dead Letter Office. Departmental postage is prepaid by special stamps, prepared and furnished by the Post-Office Department. *Letters deposited in city lamp-post boxes must have the requisite number of stamps before placing them therein. Depositing money in the boxes does not insure their being prepaid.* Newspapers are not taken at city lamp-post boxes. A letter on which *one full rate* of postage is prepaid, but on which further postage is chargeable, will be forwarded, when deposited in a post-office and the deficient postage at single rates collected on delivery. If the postage is left *wholly unpaid*, or is prepaid, *less than one full rate*, it will be "held for postage" and sent to the Dead-Letter Office. Should it reach its destination by inadvertence, however, it will be charged with *double postage* on delivery, with allowance of any amount less than one full rate which has been prepaid thereon. "One full rate" means, in the case of mail letters, *three cents*. All matter *other* than letters must be *fully prepaid*, or it will not be forwarded except possibly by inadvertence, in which case *double postage* will be collected on its delivery. Letters addressed to initials or fictitious names are not deliverable unless the address contains a designated place of delivery. The following are the rates payable on the different classes of domestic mail matter:

The following are the rates payable on the different classes of domestic mail matter:

First Class.

On letters, sealed packages, mail matter wholly or partly in writing (except book manuscripts and corrected proof sheets passing between authors and publishers, and except local or "drop" letters); on all printed matter so marked as to convey any other or further information than is conveyed by the original (except the correction of typographical errors); on all matter not otherwise chargeable with letter postage, but which is so wrapped or secured that it cannot be conveniently examined by postmasters without destroying the wrapper or envelope; on all newspapers, magazines and periodicals sent from publishers to subscribers and inclosing any article *whatever* except *bona fide* supplements or bills and receipts for subscriptions; and on all packages of matter not in itself chargeable with letter postage, but in which is inclosed or concealed any letter or other thing chargeable with letter postage, 3 cents *for each half ounce or fraction thereof*, weight of packages limited to *four pounds*. On local or "drop" letters, at offices where free delivery by carriers is established, 2 cents for each half ounce or fraction thereof, weight of packages limited to *four pounds*. On local or "drop" letters, at offices where free delivery by carriers is *not* established, 1 cent per half ounce or fraction thereof, weight of package limited to *four pounds*.

Second Class.

On newspapers and periodicals issued weekly or oftener, sent from a known office of publication, or news agency, to regular subscribers or news agents, 2 cents per pound. On newspapers or periodicals, including magazines, sent from a known office of publication, or news agency, to regular subscribers or news agents, 3 cents per pound. These rates are payable by the publisher or news dealer at the *office of mailing*, and at the time the matter is deposited in the post-office. Postage on printed matter to Canada and other British North-American Provinces can be prepaid only to the boundary line—the rates being the same as on domestic matter of the same kind. "Exchanges" are rated the same as subscribers' papers, and have the privilege of free cir-

lation in the county of publication, the same as county papers.

Third Class.

By act of July 12, 1876, pamphlets, occasional publications, transient newspapers, magazines, books, periodicals, hand-bills, posters, sheet-music (printed), prospectuses, maps, proof-sheets, corrected proof-sheets, and regular publications designed primarily for advertising purposes or free circulation, or for circulation at nominal rates, are subject to postage at the rate of one cent for each two ounces or fraction thereof; and printed cards and blanks, lithographs, prints, chromo-lithographs, engravings, photographs and stereoscopic views, book manuscripts, unsealed circulars, seeds, cuttings, roots and acorns, bulbs, flexible patterns, samples of ores, metals, minerals and merchandise, sample cards, photographic paper, letter envelopes, postal envelopes and wrappers, unprinted cards, plain and ornamental paper, card-board, and other flexible material, and all other mailable matter of the third class not herein enumerated, one cent for each ounce or fraction thereof.

All packages of matter of the third class must be so wrapped or enveloped, with open sides or ends, that their contents may be readily and thoroughly examined by postmasters, without destroying the wrappers; but seeds and other articles liable, from their form or nature, to loss or damage, unless specially protected, may be inclosed in unsealed bags or boxes which can readily be opened for examination of the contents and reclosed; or sealed bags, made of material sufficiently transparent to show the contents clearly, without opening, may be used for such matter.

Matter of the third class, inclosed in sealed envelopes, notched at the ends or side, or with the corners cut off, cannot be mailed, except at letter postage rates.

Matter of the second and third classes, containing any writing whatever, will be charged with letter postage, except as follows:

The sender of any article of the third class of mail-matter may write his or her name or address therein, or on the outside thereof, with the word "from" above or preceding the same, or may write briefly or print on any package the number and names of the articles inclosed.

Postal Cards

may be procured at any post-office, at a cost of 1 cent each. The message, etc., must be always written on the *back* of the card. If any thing but the address is written on the *face*, letter postage must be paid by stamps, or the card will not be forwarded. Nothing whatever must be *attached* to the card. Postal cards will be *forwarded* from one office to another. In case of removal of the person addressed, but will in no case be returned to writer, nor sent to the Dead-Letter Office, nor advertised.

are issued at any money-order post-office in the United States, payable at any other money-order post-office, in sums of not more than fifty dollars. Larger amounts can be sent to the same person by additional orders. **RATES:** On orders not exceeding \$15, 10 cents; over \$15 and not exceeding \$30, 15 cents; over \$30 and not exceeding \$40, 20 cents; over \$40 and not exceeding \$50, 25 cents.

Unclaimed Letters.

All letters remaining unclaimed for thirty days in a post-office after being advertised, are sent to the Dead-Letter Office, except letters bearing a request to return to the writer if not called for within a specified time, and letters bearing the name and address of the writer on the outside. Such letters are returned direct to the writers without advertising.

Forwarding Letters Free.

Prepaid and free letters are forwarded from one post-office to another, at the request of the persons addressed, without additional postage. But a letter which has been once delivered to an authorized person cannot be remailed to a new address without the prepayment of additional postage. Drop-letters, when forwarded by mail to another post-office, must be prepaid at 3 cents per half-ounce. No mail matter, except letters or postal cards, can be forwarded to a new address except on prepayment of postage by stamps at regular rates.

Registered Letters.

Letters can be registered to any part of the United States and Territories and to foreign countries, on payment of a registration fee of 10 cents. All registration fees must be paid by stamps, and the postage on all registered letters must also be prepaid in full by stamps. The public are desired by the Post-office never to send money or valuable articles in unregistered letters. Postmasters at all post-offices are obliged to register letters and packages when requested to do so.

Foreign Postage.

For letters not over half an ounce, to Austria, 5 cents; Belgium, 5 cents; Canada, 3 cents; France, 5 cents; Germany, 5 cents; Great Britain, 5 cents; Italy, 5 cents; Netherlands, 5 cents; Russia, 5 cents; Spain, 5 cents; Sweden, 5 cents; Switzerland, 5 cents.

[POSTAL CARDS may be sent to Canada, Newfoundland, Germany and Switzerland. A one-cent adhesive postage-stamp must be affixed to each postal card so sent, in addition to the one-cent stamp already printed thereon.]

Suggestions.

All mail matter should be plain and fully directed. In addition to the town or city and State, the name of the county should be added, if known; though the latter is not necessary in the case of matter for New York, Chicago, or other large cities.

All mail matter for large cities should be directed to the street and number of the person or firm addressed, or to box number. Letters for large cities, addressed to transient residents and intended "to be called for," should be marked.

Postage-stamps should be affixed to the upper right-hand corners of letters, and the use of envelopes of dark colors or fanciful forms should be avoided. Sealing-wax should not be used on mail matter in hot weather, nor at any time on letters directed to tropical countries.

Letters are sometimes "held for postage," in consequence of the failure of the stamps to adhere after the letters have been mailed. This difficulty can be avoided by taking care to wet moderately both sides of the stamps.

Glass, liquids, poisons and explosive materials are excluded from the mails by law, and, if deposited in a post-office, will not be forwarded.

Cases of serious loss or delay should be reported to the "Second Assistant Postmaster-General, Washington, D. C.; ordinary cases, to the local postmaster.

Every letter, newspaper or other packet sent by mail, should be securely folded and fastened.

THE ALBANY JOURNAL.

DAILY. SEMI-WEEKLY, WEEKLY.

STATE PAPER,

AND REPRESENTATIVE of the REPUBLICAN PARTY AT THE STATE CAPITAL.

The JOURNAL has never before been so widely read or received so many proofs of popular favor as during the past two years. No other political paper in the State, outside of New York, approaches its area or numbers, and during the stirring period of the year scarcely one even in New York equals its weekly circulation in the State.

The coming year will be full of eventful interest. The country enters upon great problems. No questions of all our grand struggle have exceeded in importance and difficulty those which now press to the front. Besides such as are suggested by the Presidential election, the vital Southern question with all its perplexities and obligations, the restoration of a sound currency, the return of the country to the solid basis and the full fruition of revived prosperity, will engage universal attention. It is a time which gives the newspaper its broadest field and highest duty, and makes it more than ever indispensable.

Earnest and steadfast in its support of true Republican principles; free to criticize, but invariably aiming to build up and not to pull down; seeking to make Republican action reflect the best Republican sentiment; always an efficient Newspaper, prompt and comprehensive in presenting the freshest and most varied intelligence of the day; complete in every department; with full market reports and attractive correspondence; with a large amount of miscellaneous and entertaining reading—THE JOURNAL will keep abreast of the best demands of the times.

It has many advantages. It is one of the cheapest papers of its class; it is published at the Capital and political center of the State; it is the State paper; it is a recognized leading representative of its party; and for nearly fifty years it has maintained its high position.

FOLSOM'S BUSINESS COLLEGE.
53 North Pearl St., ALBANY, N. Y.

Every young man, before entering upon business, should have a *business education* at this highly popular Commercial College. In securing it, they will save time and money, and find the small tuition paid, the best paying investment possible. Every dollar paid will yield ten-fold returns the first year.

No other College in the land has the *Science of Accounts* so accurately defined, and no one can render young men such important services. They should not fail to put themselves under the author of that most remarkable scientific treatise, the *Logic of ACCOUNTS*, if they would become masters of all Book-keeping, Finance and Business. It is, in a word, as represented by the author, the key that unlocks all questions and problems in business.

E. J. Folsom.

President.

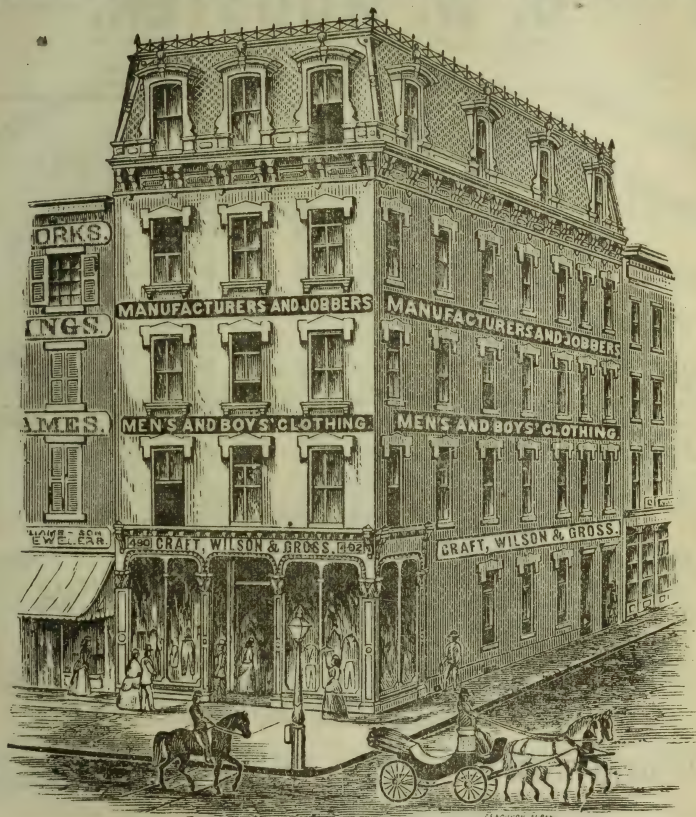

MERCHANT'S GARGLING OIL.

This standard liniment has been before the people for over forty years, it having been first manufactured in 1833, and it is safe to assert that no preparation in the market has so fully stood the test of time, and been received with such universal favor as the Gargling Oil. It is found in nearly every household in this country, and is also sold extensively in Europe. From a very small beginning the Gargling Oil Company has been obliged to steadily increase its facilities for manufacturing, and now employs an army of men, and occupies magnificent buildings of its own. Much of the success of the company is due to the careful and efficient management of Mr. John Hodge, who for some time has held the responsible position of Secretary, and who is also the proprietor of the Hodge Opera House, one of the finest buildings in Lockport, N. Y. The Gargling Oil is for sale at all the drug stores. White wrapper for human, and yellow for animal flesh.—*Quincy (Ill.) Whig.*

The *Christian Leader* (N. Y.), in speaking of Merchant's Gargling Oil, says: "Mr. Hodge is a gentleman of liberal tastes and excellent judgment, and the Gargling Oil Company, under his thoroughly judicious direction, has become one of the strongest and soundest concerns that grace the commercial annals of our State. Other medicinal specialties, in addition to the Gargling Oil, are beginning to claim the Company's attention, and of their great success we have as little doubt as we have of their intrinsic value."

Merchant's Gargling Oil!

A Liniment for Man and Beast.

"Whether for use on man or beast, Merchant's Gargling Oil will be found an invaluable Liniment, and worthy of use by every resident in the land. We know of no proprietary medicine or article now used in the United States which shares the good will of the people to a greater degree than this. Yellow wrapper for animal and white for human flesh."—*N. Y. Independent.*

Extract from a letter from G. H. Simmonds, Unionville, Ia., July 24, 1873.—"I am selling more Gargling Oil than all the liniments put together, and I am keeping twelve different kinds. I think it is the best remedy for horseflesh in existence, and can say it without fear of successful contradiction."

Extract from a letter from Shoemaker & Co., Bloomington, Ind., Sept. 17th, 1873.—"It is the popular horse liniment in this country."

Extract from a letter from Geo. A. Snell, Braman's Corners, N. Y., Aug. 9th, 1873.—"I sell more of your Gargling Oil than of all other liniments combined, and have seen it used on horses and cattle with good effect when others have failed."

Extract from a letter from Pattee & Co., Derry, N. H., Aug. 26th, 1873.—"We think your Gargling Oil one of the best articles for what it is recommended that we have ever used or sold."

Extract from a letter from Snowdon & Gibbs, Concordia, Kan., July 28th, 1873.—"We sell more of your Gargling Oil than of any liniment we keep."

Merchant's Gargling Oil as a Family Liniment.

We are now, and have been for some years, preparing the Oil free from stain, to be used as a common liniment for human flesh, extracting the coloring ingredient which has heretofore rendered it objectionable. This Oil possesses all the medicinal properties of that prepared with the dark tinge for horses and cattle, and will be found one of the best remedies for all purposes where a liniment is required that has ever been manufactured.

From J. K. Fisher, Uniontown, Pa., Jan. 31, 1857.—"Your Gargling Oil is doing much better here than formerly, since its virtues have become known; and the bottles put up for family use, without stain, are much sought for."

☞ The Gargling Oil called "Family Oil," although prepared intentionally for human flesh, answers as well for beasts; *vice versa*, the dark Oil answers as well for human flesh, only it will stain and discolor the skin, but not permanently. Yellow wrapper for animal and white for human flesh.

Merchant's Gargling Oil as an Internal Remedy.

Merchant's Gargling Oil is a diffusible stimulant and carminative. It can be taken internally when such a remedy is indicated, and is a good substitute for pain killers, cordials and anodynes. For Cramps or Spasms of the Stomach, Colic, Asthma, or Internal Pain, the dose may be from fifteen to twenty drops, on sugar, or mixed with syrup in any convenient form, and repeated at intervals of three to six hours. Yellow wrapper for animal and white for human flesh.

MERCHANT'S GARGLING OIL is the Standard Liniment of the United States. Established 1833. Large size, \$1; medium, 50c; small, 25c; small size for family use, 25c. Manufactured at Lockport, N. Y., by M. G. O. Co., and sold by all druggists.

FIRE-CRACKERS.—The insurance companies say that all the fireworks imported since January 1, 1865, amount, at invoice value, to \$1,500,000; and that at only two fires, directly occasioned by them, the loss was \$15,000,000. In fact, for every single dollar's worth of fire-crackers imported there is a loss occasioned by them of \$100. The loss on the Centennial Fourth of July alone was \$154,574.

BURNS AND SCALDS.—The great point is to keep the injured part from exposure to the air. Dust wheat flour plentifully over them. In dressing the burn, blisters should be punctured, and the old skin removed, and yet the parts exposed to the action of the air as little as possible.

CARBOLIC AND ITS USES.—Carbolic is made from coal tar, hitherto of no value, and possesses wonderful curative and cleansing qualities. In its varieties of manufacture and use we find the following: "Gorgeous colors for dyeing, laundry soap, toilet soaps, medicinal soap, dental, shaving, marine and disinfecting soaps, granulated powder, plant protectors from lice, flies, scale, etc.; also, phenic acid, cresylic acid, cresylic ointment and sheep dip. In the promotion of health, cleanliness, removal of disease, impurities of the skin or system, balm ointment for chapped hands, salt rheum, gangrene, arresting mortification, and in its use in hospitals and ships, especially where cholera and other malignant diseases are spreading, carbolic to-day stands in the front rank.

A GOOD LESSON FROM AN IRON BAR.—A bar of iron, worth five dollars, worked into horse-shoes, is worth ten dollars and fifty cents; made into needles, it is worth three hundred and fifty-five dollars; made into penknife-blades, it is worth three thousand two hundred and eighty-five dollars; made into balance-springs of watches, it is worth two hundred and fifty thousand dollars.

WHY IS FOOD REQUIRED.—The question seems almost absurd, so familiar is the fact; and yet the answer to it involves one of the grandest chapters in the history of science. In its simplest form it may be given in three words; it is fuel. We require food frequently, for just the same reason that a fire requires coals frequently, and a lamp, oil—because we are burning away. The air that we breathe into our lungs contains oxygen, and this oxygen combines with, or burns, the muscles or other organs of our bodies just as it does the coals in a fire. The heat produced in a man's body in the course of a day is considerable in quantity, though not very intense in quality. Taking the average, it is enough to raise five and a half gallons of water from freezing point to boiling point, and this is about the heat that would be given off during the burning of a pound of coals. All this heat the comes from slow wasting or burning of the substance of the body, so that it is evident that if we did not make up for this constant loss by eating food, our organs would soon be wasted away and consumed.

XLVTH CONGRESS.

The Constitution requires nine years' citizenship to qualify for admission to the Senate, and seven years to the House of Representatives. An act approved July 26, 1866, requires the Legislature of each State, which shall be chosen next preceding the expiration of any Senatorial term, on the second Tuesday after its first meeting, to elect a successor, each House nominating *visa voce*, and then convening in Joint Assembly to compare nominations. In case of agreement, such person shall be declared duly elected; and if they do not agree, then balloting to continue from day to day, at 12 m., during the session, until choice has been made. Vacancies are to be filled in like manner. The members of each House receive a salary of \$5,000 per annum, and mileage at the rate of twenty cents per mile. For each day's absence, except when caused by sickness, \$8 per diem is deducted from the salary. The President *pro tem.* of the Senate receives the same compensation as the Vice-President. The Speaker of the House of Representatives receives double the salary of a member.

SENATE—76 MEMBERS.
